### 1. UNIQUE STORAGE

Classically inspired this generously proportioned cabinet will take pride of place in any home. The Bon Apetit cupboard has endless storage options with five enclosed cupboards, fourteen drawers and three tiered shelves behind glass fronted doors. No kitchen or dining area should be without this timeless piece.

### 2. ROCOCO sofa with cushions

A signature blend of value and style makes this Rococo Sofa a true classic. The upholstered velvet seat and frame enjoy a high back and deep seat with cushions that invite relaxation. Resembling furniture used in the Parisienne Salons of years gone by, it's classic proportions allow for intimate conversation. Black gloss and cabriole legs suggest an air of classic luxury.

### 3. GALBEE commode

Antique or not, it is hard to tell as the hand painted finish is authentic as if time itself has worn the paint away to reveal the mahogany under. Storage and style are coupled in this versatile piece - foyer, study or bedroom, the Galbee will sit elegantly in any setting. The slight serpentine front of the four large drawers and the body are an eye catching feature. Made from a combination of wood components and finished with the antique brass hardware - you'll want to buy two!

A long shelf adds storage and handsome turned legs and diamond pattern mouldings running along the apron and sides giving it an old world presence. Two drawers add versatility to the console for cutlery or placemats. Crafted from a combination of wood products, the base is hand finished in your choice of Antique Ivory or Antique Jaune and a wood veneer top in light honey stain complement the console.

### 7. LYON range
